9. Historical significance (include explanation of themes checked above)

One of two octagonal houses extant in Worcester, the Barker House is a rare example of its type, constructed of stone chips and faced with stucco, incised to resemble masonry. The building's eight outside walls have pilaster-like raised sections at the heads of which are paired brackets. Prior to the 1920s, the house also had an octagonal cupola. The Octagonal Mode of house building existed as a fad, mostly during the 1850s and early 1860s. Its popularity arose from books by Orson Squire Fowler, especially Fowler's A Home for All, or the Gravel Wall and Octagon Mode of Building, New, Cheap, Convenient, Superior and Adapted to Rich and Poor which went through eight printings between 1848 and 1857. Although Fowler recommended the construction of houses using stone and mortar ("the gravel wall"), most octagonal houses were built of wood; examples of gravel wall construction such as the Barker House are very rare.

The house's first known owner and occupant was Richard Barker, a carpenter, who first lived at 312 Plantation Street in 1866. Although it is possible that the house was built for Barker in 1865 or 1866, the fad had largely passed by this date, making it likely that Barker purchased from a previous owner. The uniqueness of the Barker House and the fanciful associations of its style make it an important building to preserve.

Excellent multiple resource nomination for the entire city of Worcester. Both the general description or statement of significance & the individual inventory sheets are well done. Each type of property included is well justified & reasons are listed for not including others at this time (e.g. 3-deckers). Opposition is high. Minor problems with some properties are listed on attached sheets.

ARCHITECTURAL HISTORIAN

Concur with Bruce's comments on 102-L-3, 116-CBD-11, 117-E, and 130-CBD-50 and 44. Integrity and/or boundaries need to be addressed specifically on individual forms. DOUBLE

ARCHEOLOGIST

116-CBD-11 - Destroyed, cannot be listed.
130-CBD-44 - I am not convinced this has lost integrity. See attached.
102-L-3 - Period of significance and categorization of 1 bldg need to be discussed with State.

With 3 exceptions all properties appear to me to meet the criteria and the forms are adequate. ~~Both~~ both technically and to determine significance. Although some of the forms did not contain strong statements of significance the resource categories were thoroughly discussed in the body of the nomination; therefore significance was established. VBDs were not necessary because

of the scale maps and clearly delineated boundaries. Acreage was missing on some properties but is now included after the 2/11/80 corrections. The only properties that I do not recommend listing are

- ✓ 116-CBD-13 - DESTROYED BY FIRE MD - 16 CBD-11
- 130-CBD-44 - DOES NOT RETAIN INTEGRITY FOR INDIVIDUAL ELIGIBILITY

✓ 102-L-3 I ~~am~~ am NOT CONVINCED ABOUT BOUNDARIES BUT BELIEVE THEY WOULD BE OK. ~~BASED~~ BASED ON ADDITIONAL DOCUMENTATION SUBMITTED - I DEFER JUDGEMENT.
